FINAL TECH INSPECTION (Done at TRACK)

The final Tech will be done by the instructor prior to your first track time. This will only be a courtesy inspection to check for anything you may have forgotten. (i.e. radar detectors, garage door openers, floor mats, in general anything that is not bolted down) Your trunk and glove box must be empty, so bring some bags to store your things in case of rain. If you or your car is not ready to go on the track, YOU WILL LOSE TRACK TIME. We will be on a very tight schedule so please be on time.
